

PRINCIPALI ATTIVITA' SVOLTE

- Raccolta informazioni sulla Dispersione scolastica

Ogni partner del progetto ha sviluppato un Rapporto Nazionale che analizza gli esiti nazionali della dispersione sulla base di dati quantitativi. Il rapporto è integrato da studio di casi, interviste, analisi di buone pratiche, ecc..

I rapporti nazionali sono sintetizzati in un Rapporto Transnazionale che fornisce una analisi comparativa della dispersione scolastica in Europa.

-Creazione di un Database

Il partenariato del progetto ha dato vita ad un database di documenti, pubblicazioni, rapporti, statistiche sugli esiti della dispersione scolastica, che sarà disponibile online a livello nazionale ed europeo.

- Sviluppo di un pacchetto per la formazione

Il partenariato del progetto ha elaborato un pacchetto di formazione per la lotta alla dispersione scolastica. Il principale scopo del pacchetto formativo è fornire agli insegnanti e ai dirigenti di scuola superiore competenze per identificare i fattori di rischio che possono indurre l'abbandono, per realizzare una effettiva prevenzione.

MAIN ACTIVITIES

- Collection of Information on Early School Leaving

Each project partner has developed a National Report analysing national early school leaving issues on the basis of qualitative and quantitative data. The report is integrated with case studies, interviews, best practice analysis, etc.

The National Reports are merged into a Transnational Report that provides a comparative analysis of early school leaving in Europe.

- Creation of Database

The project partnership has created an online database of documents publications, reports, statistics available at national and European level on the early school leaving issues.

- Training Package Development

The project partnership has created a training package on early school leaving related issues. The main aim of the training package has been to give secondary school teachers and directors the skills to identify risk factors that can lead to early school leaving and to suggest effective strategies which can be used to address the problem.
